PROJECTS

Portfolio Website (Link)

Personal Project

- Developed a responsive personal website using HTML, CSS, and JavaScript, featuring a modern UI with interactive elements and user authentication.
- Integrated OpenWeather API to display real-time weather data based on user input.
- Implemented an SMS notification system using Twilio, allowing users to subscribe for weather updates
- Built a Node.js & Express.js backend with RESTful API endpoints to handle user requests.

Type Tester (Link)

Personal Project

- Developed a responsive typing game using React and TypeScript.
- Styled the application using Tailwind CSS, achieving a modern and consistent user interface.
- Integrated animations with Framer Motion to provide visual feedback, enhancing the user experience.
- Utilized the Faker.js library to generate random words, offering varied typing challenges to users

Arcanist (Link)

Class Project - Intro to Software Engineering

- Developed a 2D Maze Game in Java with collision detection and a Java Swing framework GUI.
- Applied OOP principles and Abstract Factory Design Pattern to facilitate enhancements and scalability.
- Utilized Git for version control and collaborated with team members to manage codebase, integrate changes, and streamline CI/CD workflows.
- Applied code optimization techniques along with JUnit for testing, improving the runtime of our program.

WORK EXPERIENCE

Hospitality Supervisor

Aug 2021 – Present

Canucks Sports & Entertainment, Vancouver, BC

- Managed front and back of house teams to effectively communicate to reach and maintain company goals.
- Providing ongoing coaching, leadership and training for current and new team members.
- Performing IT related tasks and troubleshooting problems on Micros POS systems.
- Prepared reports on inventory levels and adjustments while performing nightly analysis to predict potential inventory problems

AWARDS & ACCOMPLISHMENTS

Recognition at Canucks Sports & Entertainment

Received personalized shoutout and award for going above and beyond during Fan Interactions to ensure utmost satisfaction.

CodeAcademy Full Stack Engineer Certification

Covered JavaScript, Node.js, SQL, React, REST APIs.

Arcanist Trailer Video

Edited a Trailer Video for Arcanist which resulted in our project being voted Top 3 in the class.

EDUCATION

Simon Fraser University

Graduation: Dec 2026

BSc. Computing Science, Burnaby, BC
